The award-winning CheXpress CX30 is the only bank-quality check scanner offered at a small business price. This stylish and quiet single-feed scanner is the perfect device for lower volume check capture environments.

Worry-Free Reliability
Our scanners are engineered to last. The CX30 will process over a million items during its life, which is the highest duty cycle of any scanner in its class.

The Ultimate in Low Maintenance
Maximize productivity and avoid hardware headaches. The CX30's simple transport design means minimal user maintenance is required.

Extremely Fast, Remarkably Quiet
At a rated speed of one second per scan the CX30 makes quick work of any deposit. Concerned about noise? Don't be. The CX30 is remarkably quiet and suited for any work environment.

Here, There, Anywhere
We know desktop real estate is at a premium. The CX30's economical footprint and flexible cable management system means you won't have an issue finding it a home in your workspace.

Pass Through Feed Option
Users can choose between "scan and return" or "pass through" scan modes. With "pass through", scanned items follow a straight paper path and exit through the rear of the scanner. Ideal for kiosks and other self-service settings.

Image and MICR Quality is Everything
Featuring high performance front and rear image sensors with dual pass MICR read-head capability, the CX30 is truly in a class of its own. With our special document handling technologies, even the most challenging money orders and checks written with gel pen ink are a snap to process.

The Secure Choice for Banks Around the World
The CX30 is the secure choice for banks around the world because of its reliability and image quality. Whether you are a small business processing a few checks per day or a larger merchant that receives dozens of checks per day, the CX30 is built to handle whatever you throw at it. That's why banks around the world prefer the CX30, knowing that their brand will be well-represented and their customers well-served by this intuitive and reliable scanner.
